

Ceto Circlet

Ross Gardam

Ceto Circlet captures the variation and rippling of the surface of the ocean. Each piece is mouth blown, reflecting a distinct pattern that emits a delicate luminosity, evoking the presence of the sea and its undulating movements. The Ceto Circlet collection features a circular band suspended in a horizontal plane, to which several Ceto lamps are affixed.

Each glass shade is mouth blown in Australia and hand assembled in our Melbourne based studio. This sculptural luminaire is available in a selection of glass finishes combined with a highly refined machined aluminium body and circular band available in a black and champagne anodised finish.
