

Artefatto by Andraos, Scisciani & Morales

Henzel Studio

Developed for Atelier Bowy C.D., part of Henzel Studio, this work by Sacha Andraos, Lorenzo Scisciani and Salvatore Morales of Artefatto Design Studio forms part of The Atelier Editions program, a series of limited textile works created in collaboration with artists, architects and designers. The piece is introduced in the context of Milan Design Week at Museo Nazionale Scienza e Tecnologia Leonardo da Vinci, within the historic spaces of Le Cavallerizze.

Titled Translation, the work reflects Artefatto's research-driven approach to design, where form emerges through experimentation and controlled unpredictability. The composition originates from generative modeling, a digital process that produces evolving geometric structures through algorithmic variation.
