

Ceto Vertical Chandelier

Ross Gardam

Ceto captures the variation and rippling of the surface of the ocean. The collection explores the deep relationship between light and the ocean in a range of mesmerizing luminaires. Each piece reflects a distinct pattern emitting a delicate luminosity, which embodies the presence of the sea and the power within its undulating movements.

The Ceto Vertical Chandelier features multiple Ceto luminaries connected by a solid machined aluminum body in a vertical format, which reimagines the conventional chandelier. A striking addition to any interior setting, the Ceto Vertical Chandelier can be easily customized and configured to specific project needs.
