

Ceto Wall Light

Ross Gardam

Ceto captures the variation and rippling of the surface of the ocean. The collection explores the deep relationship between light and the ocean in a range of mesmerising luminaires. Each piece reflects a distinct pattern emitting a delicate luminosity, which embodies the presence of the sea and the power within its undulating movements.

Sculptural and captivating all at once, Ceto's silhouette is a result of a series of experimentations with traditional optic glass blowing techniques and innovative engineering. Through the process of blowing, each light achieves its unique glass effect.

The Ceto Wall Light reflects the shadows of the glass against the wall

finish.
