

Crux (I, II, III)

Christopher Boots

CRUX explores the natural geometries of the five stars that form the Southern Cross – one of the most recognisable constellations in the southern sky.

CRUX reflects the unique formation of the Southern Cross, symbolising guidance and navigation through the night sky. Four stars produce a gentle illumination through undulating glass elements, as they gently suspend amongst the cast brass matter of deep space.

The CRUX collection comprises one sconce and two pendant variations.
