

Fryman Side Table

Phase Design

Blurring the line between indoors and outdoors, the Fryman collection is equally comfortable in both settings. With a choice of stone to set the tenor and a powder-coated or polished chrome structure, the Fryman collection strikes the delicate balance between functionality and timelessness.

Indoor version is offered in powder-coated or polished chrome steel with stone top. Outdoor version is offered in powder-coated stainless steel with stone top. Bases are available in a flat putty, flat black or flat white powder coat finish, and in polished chrome. Powder coat finishes also available in custom colors. Travertine, white carrara, or negro marquina marble top.

Starting at: \$1,970
