

Kelly Chandelier Small

Gabriel Scott

A chandelier that moves with glamorous intrigue, the Kelly Chandelier's metallic chain cascades through its various layers to create a glistening reflective effect. Available in black steel or satin brass.

A bold synergy of cold metal with warm light, the black or brass frame hosts a matching chain that brightens any interior. With its Art Deco sensibility, the Kelly Chandelier is a transitional light fixture of exemplary proportion.

The Kelly is available in small, large and extra-large. Custom sizes available, please get in touch if you want require a bespoke option.
