

Luna A Round Sconce

Gabriel Scott

The softness and uniqueness of the Luna A Round Sconce makes this piece perfect for all applications. Available in black hardware with smoked glass or brass hardware with bronze glass, the sconce can also be installed as a flush mount directly on the ceiling.

Highlighting the beauty of blown glass, the Luna A-Series stands out by its simplicity and elegance. This allusive play of light is rendered through a coordinated stacking of glass forms blown by master artisans in various gradients of colored glass.
