

Museum Glass Bench

Christopher Kreiling

The Museum Glass Bench in annealed glass and steel was originally envisioned to be placed near art, as not to obstruct the view, yet allow one a place to sit and contemplate the work. It's made of commercial grade glass pipes and solid steel and is strong enough to hold up to 250 lbs. The steel has a blackened patina that reads like a dark graphite grey in bright light and then coated with a matte finish to protect it from rust. This heavy industrial, minimal modern piece is a real conversation starter.

Starting at: \$14,500

60 W x 19 D x 18 H
