

## Philodendron Leaf Lounge Chair

Christopher Kreiling

Each Philodendron Leaf Lounge Chair is unique and is, on its own, a beautifully crafted hand-forged brass sculpture. The split-leaf philodendron leaf shape lent itself perfectly to making a very comfortable lounge chair. One's head can rest on the seat back – while the arms comfortably lay on the armrests. The Philodendron Leaf Lounge Chair is streamlined and appears somewhat delicate but is heavy enough that it takes two people to move it.

\$25,000
