

Tall Bubble Chandelier

Pelle

Based on the original 2008 design, the Tall Bubble Chandelier is 47 inches tall, but is available in custom heights. Characterized by the warmth and qualities of an intricately handmade piece, the Tall Bubble Chandelier is among others in the collection that have achieved the status of a timeless classic.

The hand-blown glass bubbles are anchored by precision-tooled hardware, and finished with a decorative natural cotton coiling. Other optional customization upgrades include hand-painted strokes, 24-karat gold leaf, or silver leaf added to the glass globes, various metal finishes, and leather cord coiling.

Starting at: \$9,400
