

Theia Sconce

Christopher Boots

A domed sconce inspired by the ancient, hypothesized planet Theia and its namesake Greek Titaness; a symbol of clarity, light and insight.

Akin to an antique hand-blown glass chandelier in its scale, craftsmanship and intricacy, THEIA is conceived as a future heirloom standing the test of time. A hemispherical form, feathered in clear quartz crystals, rests beneath a translucent substrate, protecting the precious material and forging a striking silhouette.

By day, THEIA stands as a sculptural centerpiece, its textured surface interacting with natural light to create dynamic reflections. At night, the piece transforms, casting a warm, ambient glow.
