

## ULU XT

Ara Thorose

ULU XT1's cylinder flows through a pattern of U-turns and L-turns. Through a minimal course of movement, it touches the essential points for becoming a table's armature. The armature is made of steel and neoprene. The table top is a glass box, and its width proportioned to the flowing neoprene cylinders.

Edition of 8

Starting at: \$14,000

Leadtime: 12-14 Weeks

Inches: 48" W x 31.5" D x 31.5" H
