

Untitled by Linda Linko

Henzel Studio

Linda Linko is a Helsinki-based artist and designer whose practice moves between drawing, painting, collage, and hand-made image construction. Her work is defined by an immediate, expressive visual language in which abstract forms, gestural marks, and fragments of figuration are brought into carefully balanced tension.

Working across paper, canvas, and applied formats, Linko often builds her compositions through processes of cutting, layering, drawing, and painting. The result is a body of work that feels both spontaneous and deliberate, where incompleteness, rhythm, and the visible trace of the hand become central to the image.
