

## Welles Glass Long Chandelier 14

Gabriel Scott

The Welles Glass 14 Chandelier is one of our most popular lighting fixtures across the entire collection. Inspired by jewelry, each Welles module is made of a soft, frosted glass in either alabaster white or smoked gray encased in a choice of metallic prongs. Welles Textured Glass offers three texture and three color options, please get in touch with our team should you want to know more about this finish.

The Welles Glass Chandelier has been used in hundreds of projects across the world. Its versatile design means it can work in any interior environment across residential and hospitality projects. Explore our Gallery section to see how the Welles Glass series has been used in recent

and Michelle Gerson under the Welles Reimagined website page. Get in touch if you want to customize any of the pieces.
