

Welles Steel 5-Spoke Pendant

Gabriel Scott

The Welles Steel 5-Spoke Pendant offers a sculptural display of five interconnected Welles modules all made by hand in our Montreal studio. Choose from a combination of black or white steel and metal finish or an all over copper, brass or nickel finish.

Five hollowed metallic polygons elegantly hang together to create a beautiful alternative to the linear Welles Steel Chandelier options.

The Welles Steel 5-Spoke Pendant is one of many lighting fixtures in the original Welles collection. Since the collection's launch in 2017, further finish options have been added to the collection. Explore Welles Glass, Textured Glass and Welles Reimagined to realize how customizable this lighting series really is.
