

Welles Steel Central Long Chandelier 24

Gabriel Scott

When designing the Welles Steel Chandelier, we were looking to design a lighting fixture that would meet two objectives: It had to be expandable without making use of rods; it had to be accomplished with a modular system. The outcome was a geometry that allowed us to build seemingly infinite configurations with the repetition of a single module.

Hollowed metallic polygons branch out into a modular system of interconnected configurations for a stunning optical illusion. The Welles Steel Chandelier can be scaled up or down, or be created in a completely custom configuration.

Starting at: $33,120

Leadtime: 12-14 Weeks

95.41” x 20” x 17.99” H + Drop
