

Wired Lights

Phase Design

The Wired Floor Lights add drama and intrigue to any environment. The shell of the two Wired Side Tables function as the housing for the lighting element and stretch from there to the floor, creating a commanding presence. The lights are available in two lengths; 54" and 60" towers. By experimenting with different bulbs, dramatic shadow effects can be created. Indoor use only.

Solid steel bar available in gloss or flat black and white powder coat, polished chrome, burnt copper, or smoked brass finish. Powder coat finishes are available in custom colors.

Starting at: \$3,330
