

ANTONI

The Antoni coffee table is a larger variation of our "Gail" (a small side table). Its legs slope slightly inward, and the dimensions (40" diam. x 22h) put it into the coffee table range. Beyond that it can be describe in the same words as the Gail:

"The Classic geometry of this little table, a round top over a triangular shelf or stretcher assembly, supported by three legs, is given a sculpted, organic form employing traditional carving techniques not seen since the great masters of Art Nouveau. The upturned lip on the edge and the flowing connection of legs and top recall lily pads or sensuous leaves. The deep carving where the legs flow into the triangular stretcher remind us of the human ankle. Altogether, it is a modern conceptualization of Classic ideas of form and function, balance and proportion, and a harmony of the material (wood) with its basic geometry."

It is named "Antoni" in homage to the great Art Nouveau master Antoni Gaudi.

MATERIALS

Sapele

DIMENSIONS

22"h x 40" diameter

DESIGNER

Vlad Krasnogorov

LEAD TIME

8-10 weeks

Cerused

Ebonized
