

CATALOGUE / HEARTH LOUNGE

sales@twentieth.net

ROSS GARDAM

Hearth is the new heart of your home, a lounging system designed for flexible living.

Inspired by our popular Place collection, Hearth features generous proportions perfect for lounging while its modular nature allows it to fit and complement any space.

ROSS GARDAM

HEARTH COLLECTION

OPTIONED FOR FLEXIBILITY

Hearth is available in two base options, creating two very distinct aesthetics.

Hearth Classic utilises a full height seating element with arms and backs travelling down closer to the floor.

Hearth Loft features a metal leg detail with an expressed tenon joint, subtly pressed through the leg. This raises the base of the lounge 170mm off the floor creating a light floating visual.

All of the seat heights and cushions are universal across the Loft and Classic versions. Both options share the same foam and feather wrap details delivering an exceptional level of comfort across the range.

HEARTH LOFT THREE SEATER LOUNGE

COMFORT DESIGNED

Reflected in the oversized French seams and looseness in the rear cushion, Hearth is soft and welcoming.

The spacious proportions of the seating surface combined with the soft arms and feather cushions create the perfect space to relax.

Hearth's refined form, opulent proportions and superbly crafted structure represents a new stylish and intelligent lounging system for your space.

BALANCED STRUCTURE

It's what's inside Hearth that counts. The elegant composition of feather down over a foamed sprung seating platform offers an unparalleled level of comfort.

Each tailored rear cushions has a foam core delicately wrapped with a quilted feather fibre ensuring Hearth is designed for maximum comfort. Optional scatter cushions in two sizes are made from a luxurious mix of feather and down creating the highest level of well-being and luxury.

MADE WELL, MADE TO LAST

Hearth is crafted to the highest of qualities, made entirely in Melbourne, Australia. Each material and process has been selected based on its environmental properties and durability for longevity.

Hearth has achieved the highest level of eco certification with GECA, which is an independently assessed, internationally recognised certification. The GECA program ensures products have a lower impact on the environment and human health as well as being ethically made and fit for purpose.

STAYING CONNECTED

Individual preference is at the forefront of the Hearth collection. With a plethora of modules in various lengths and shapes available and customisable cushion configurations, the Hearth is designed to suit the individual.

Each module connects seamlessly via ingenious locking brackets located under the lounge. The arms and backs of the lounge then zip together in a hidden French seam to create a completely integrated lounging experience.

UPHOLSTERY

Hearth is offered in a range of house fabrics and leathers, available to select from the Ross Gardam House Upholstery range.

Alternatively, Hearth can be upholstered in COM (Customer Own Material) or COL (Customer Own Leather). Please get in contact for specific meterages.

DOWNLOAD ROSS GARDAM HOUSE UPHOLSTERY RANGE >

MATERIALS

Designed using the highest quality materials with comfort at the forefront, Hearth is constructed using the following materials:

- INTERNAL FRAME** / The internal frame is constructed from plywood and EO MDF. The seat utilises metal no-sag springs for support, creating a high level of comfort and ensuring long-term endurance.

BACK & ARM / The back and arms are constructed from plywood (straight lounges) or tubular steel and EO MDF (curved lounges), polyurethane foam and polyester batting.

SEAT CUSHION AND UPHOLSTERY / Formed from shaped polyurethane foam of different densities and polyethylene terephthalate (PET) to create a supportive yet comfortable seat. Overlaid with feather down for softness and polyester batting for additional comfort. Upholstery and leathers are available in a range of varying textures, durability and tactility properties. Upholstery is selected at the time of ordering.
- REAR CUSHION** / Formed from a foam core with a quilted feather fibre wrap for softness and comfort.

SCATTER CUSHIONS / Created from a feather and down mix

GLIDES (CLASSIC) / Lounges sit on nylon glides to raise lounge base off floor.

LEGS (LOFT) / Lounges sit on powder coated steel legs with nylon foot.

JOINER BRACKET (CLASSIC) / Powder coated bent steel with felt base.

ENVIRONMENT

Hearth has achieved the highest level of eco certification with GECA, which is an independently assessed, internationally recognised certification. The GECA program ensures products have a lower impact on the environment and human health as well as being ethically made and fit for purpose.

Hearth lounges are made in Melbourne and fully GECA certified - FFG-200026.
